🪪 Profile

As a Frontend Developer I apply my React and SEO skills to create responsive and user-friendly websites and landing pages. I collaborate with designers, backend developers, and project managers to deliver high-quality and scalable solutions that meet client requirements and deadlines.

I have a Bachelor of Science degree from Assiut University, where I learned the fundamentals of HTML, CSS, JavaScript, and TypeScript, as well as object-oriented programming and problem-solving techniques. I also obtained four certifications from the Information Technology Institute (ITI) in JavaScript and HTML5 with CSS3. I am passionate about learning new technologies and frameworks, and I continuously seek opportunities to improve my skills and knowledge.
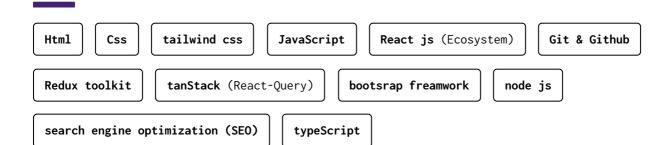

🎓 Education

Bachelor of Science in Computer Science   2020 – 2024
Assiut University   Assiut

🧠 Skills

| Html | Css | tailwind css | JavaScript | React js (Ecosystem) | Git & Github |

| Redux toolkit | tanStack (React-Query) | bootsrap freamwork | node js |

| search engine optimization (SEO) | typeScript |

📂 Projects

Comfy Store ⧉
The Comfy Store Project aimed to develop an online e-commerce platform tailored for users seeking comfort-focused products, ranging from apparel to home essentials with darkmode

Food website ⧉
Delicious Bites is a premier online destination for food enthusiasts, offering a rich blend of recipes, culinary tips, restaurant reviews, and more.

Quiz Gard

Quizz Gard could potentially be a term related to the security, management, or monitoring of quizzes, tests, or educational assessments.

Sloth e-commerce ⧉

Sloth E-commerce is a digital platform designed for individuals seeking a laid-back and stress-free online shopping experience. Drawing inspiration from the calm and unhurried nature of sloths, the platform aims to simplify the e-commerce process while offering a curated selection of products.

Tasks app ⧉

The Tasks App is a digital platform designed to help users manage and organize their daily tasks, assignments, and to-dos efficiently, ensuring productivity and timely completion of goals.
